

Allied's Prince Arron is Prizefighter Champion

Well done to Arron Jones or "Prince Arron" as he is more widely known for winning the 10th edition of the Prize Fighter tournament.

Arron beat 3 highly regarded boxers including ex-Commonwealth Champion, Bradley Pryce.

When not boxing Arron works full time in our Oldham yard. Allied sponsor Arron, and are proud to be associated with his success.

He also recently won his follow up fight, again on Sky's Friday Fight Night, and at only 22 he has a great career ahead of him.

HEALTH, SAFETY, ENVIRONMENT & QUALITY AUDIT SUCCESS

Following a two day external audit carried out by United Registrar of Systems in March, Allied have once again been awarded

ISO9001: 2008 award for **Quality**
OHSAS18001: 2007 award for **Safety**
ISO14001: 2004 award for **Environment.**

Allied are proud to hold these awards and look forward to developing and continuously improving our systems & standards to not only maintain the above accreditations but also to ensure our compliance the other standards Allied currently hold. (See below).

RAPID-EPS

The Rapid-EPS video is now available via the internet.

If you would like to view the video which guides users through the installation process please visit the following address:

Scaffold Works:
Fully boarded external independent scaffolds, fully sheeted including stair & loading towers.

ACACIAS & LEVENSHULME SCHOOL, MANCHESTER

Start Date: Oct 2009

Project Description:
Manchester BSF academy

Scaffold Works:
External designed access scaffolds for brickwork, plus various internal scaffolds.

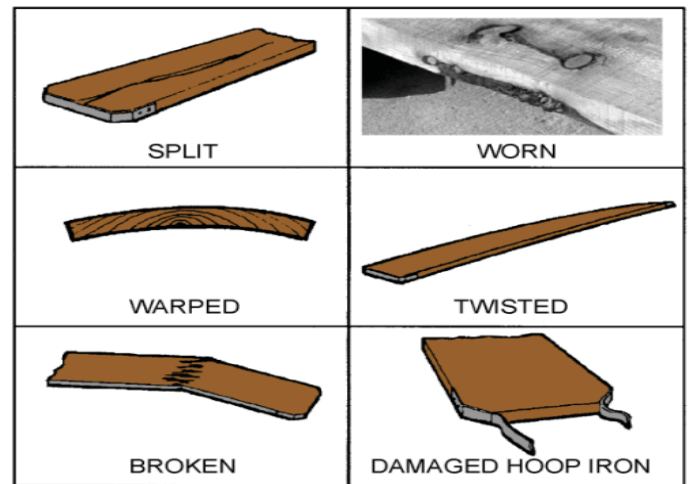

SCAFFOLD BOARDS

Following recent board failures in the industry a Safety Alert has been published by the NASC involving the failure of boards that are not to the BS 2482: 2009.

Even though existing training has already been given by Allied through the CISRS courses, induction etc, we take this matter seriously. Refresher training through a Tool Box Talk will be given to cover the key issues.

We would urge you to raise any problems with non-conforming materials coming out of the yards with your supervisor.

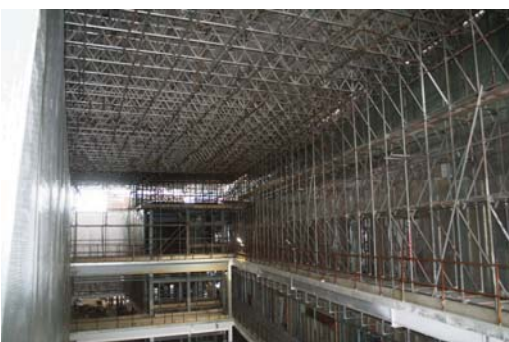

Also please ensure where boards get moved around a site that quality checks are carried out each time a board is re-used. Please look out for the following:

EXAMPLES OF DESIGN WORKS DONE IN 2010:

SHEPHERD CONSTRUCTION: TRINITY WALK, WAKEFIELD (above)

BALFOUR BEATTY: HOPE HOSPITAL, MANCHESTER (above)

RECENTLY COMPLETED TRAINING

Well done to the following operatives for successfully completing their recent training:

- Jordan Robinson & Michael Davenport for successfully completing their **Part 1 Scaffold** course.
- Danny Shaw, Declan Jones & Terry Whittle for successfully completing their **iPAF**.
- Jack Moorhouse, Lee Frankish & Peter Wright for successfully completing their Site Supervisor Safety Training Scheme (**SSSTS**).
- Wayne Helm for successfully completing his **Part 2 Scaffold** course.

Please speak to your Supervisors if you think you & Allied would benefit from any further training.

Appraisals will continue in 2010 at which we will set Training Plans for the next 12 months.

ACCIDENT STATISTICS

Unfortunately our goal of **Target Zero**: i.e. no accidents in 2010 has failed. We have had 3 minor injuries in the first 4 months of this year.

2009 statistics show:

3 No. Minor Injuries

2010 to date:

0 No. RIDDOR Injury

0 No. 1-3 Day Injury

3 No. Minor Injuries

Although the injuries have been minor we must aim for **no more** throughout 2010.

One of the contributory factors that have led to 1 of these accidents was the wearing of Safety Glasses on site at all times. It is important that we follow the PPE rules onsite.

However we will be discussing with our clients relaxation of the blanket rules, by allowing in restricted circumstances scaffolders to work without glasses (e.g. Wet weather conditions).

If you have any concerns on a day to day basis with specific tasks then don't hesitate to talk to your supervisor, who will discuss the matter with our safety advisors & customers

We will continue to consult with all stakeholders to ensure our working practises are effective and practical.

ALLIED MIDDLE EAST WINS GPIC SAFETY AWARD

John Bracken (ASL Chairman) would like to thank all of those involved with operations at Allied Middle East for all of their hard work and effort in maintaining excellent safety & good working practices onsite at GPIC.

"This is excellent news for our 1st major shutdown in Bahrain. Congratulations." - John Bracken, Group Chairman.

HSEQ AWARDS

Allied are committed to continuing with the HSEQ Awards in 2010.

This years current winners so far are:

January 2010:

Not awarded due to weather disruptions.

February 2010:

Peter Taylor & team for excellent work on the Brighthouse Swimming Pool resulting in a excellent report from the HSE.

March 2010:

John Savage & team for the excellent work carried out in difficult circumstances on Malmaison, Liverpool.

If any member of staff, operative or client would like to make any comments, or suggestions please write about it below, cut off the slip and either give it to your supervisor or take it to one of the offices listed below (or email us at info@alliedscaffolding.co.uk)
